## DATABANK OPENS NEW BRANCH IN SUNYANI

Ghana's premier investment bank, Databank, has opened its newest branch in the capital city of the Brong Ahafo region, Sunyani. This brings the total number of Databank branches across the country to five (5), with another nine (9) GTBank partner locations. Databank's penetration into Sunyani is aimed at not only helping Ghanaians get access to Databank's innovative products, but also to give our new and existing clients in Sunyani and its environs, more convenient options in growing their investments.

Databank's Sunyani office, located on the 3<sup>rd</sup> floor of the GCB Building, was officially opened for business on Thursday, May 4, 2017. Addressing dignitaries at a short opening ceremony, the Group Chief Marketing Officer of Databank, Mrs. Gillian Hammah, stated that the access to investment firms in Ghana is very limited. "Investment firms, like Databank, have been operating primarily in Accra, and at best, expanding to Kumasi and Takoradi. However, there are millions of Ghanaians who live outside these three regions and have dreams of building a house, starting or growing a business, as well as, giving their children access to quality education." She further explained that through Databank's expansion drive, the firm will continue to help every Ghanaian to invest responsibly towards achieving their financial dreams.

Clients who visit the Sunyani branch will have access to all the products and services offered at any Databank branch across the country, including opening of mutual fund investment accounts, checking account balances, withdrawing funds, signing up for value added services such as Databank Notification Alert (DNA), Direct Debit and so much more. Clients can also buy Treasury bills, purchase and sell shares, as well as, learn more about Databank Pensions, Wealth Management, Private Equity and Institutional Funds. Operating hours of the branch are on weekdays from 8:00 a.m. to 5:00 p.m.

For over 27 years and counting, helping Ghanaians achieve financial independence remains at the forefront of Databank's efforts.
