Risk /Return profile#	● ● ○ ○ ○ Low to medium

Who should invest in this Fund

Individuals who are looking for a low risk investment that offers growth and also aligned with their ethical, social and environmental values.

*Risk/Return profile measures the degree of uncertainty that an investor can handle regarding fluctuations in the value of their portfolio. The amount of risk associated with any particular investment depends largely on your personal circumstances including your time horizon, liquidity needs, portfolio size, income, investment knowledge and attitude towards price fluctuations. Investors should consult their financial investment advisor before making a decision as to whether this fund is suitable investment for them.

Commissions, management fees and expenses may all be associated with mutual fund investments. Please read the scheme particulars before investing. The indicated rates of returns include changes in share value and reinvestment of all distributions [dividends] and do not take into account sales, redemption, or optional charges payable by any unitholder that would have reduced returns. The rates of return are used only to illustrate the effects of the compound growth rate and are not intended to reflect future values of the mutual fund or returns on investment in the mutual fund. Mutual funds are not guaranteed, their values change frequently and past performance may not be repeated.
