To buy or to build?

Deciding whether to buy or build ultimately comes down to you. Here are some pros and cons to consider before you decide.

BUYING BUILDING

Advantages

- Stress-free and saves you time
- May be cheaper than building
- Possibe to occupy house before completion of payment
- Ability to customize the house
- Sense of pride from completing your house
- No need for maintenance costs for a while

Limitations

- No control over the final look/ design of the house
- Extra cost of redesigning and maintenance
- Time-consuming and expensive
- It's stressful as you have to make all the decisions

Is great for YOU if...

- You are a first-time homeowner who does not have time and can afford the house.
- You have time and know the ins and outs of building or a professional who can help
