

## TO FINANCIAL INDEPENDENCE

# 12

## INVEST WISELY. INVEST WITH DATABANK

At Databank, we believe that building wealth through investments can, and should, be simple. You only need to establish a few smart habits to be in control of growing your finances, and we are prepared to help you. With our investment expertise and proven long-term track record of 28 successful years, you can rest easy and be assured that your interests as an investor come first. On top of being the best-equipped professionals to work with you to develop a customized investment strategy, our greatest value is our ability and willingness to be your investment coach. To educate you on the principles of investing; to keep you focused on your target; to hold you accountable for your decisions; to keep you from making costly behavioral mistakes and, most of all, to help you invest wisely. Here are 3 main tips to investing wisely:

### **1. Don't invest based on hear-say**

As helpful as getting financial advice is, every investment plan should be unique to the investor. Know and understand why you're investing. Ask important questions and conduct your own in-depth research before you invest. Be an informed investor.

### **2. Spend less than you earn**

Your ability to spend less than you earn is one of the strongest indicators of your potential to build wealth. So, the wider the gap between your earning and spending, the greater your chances are of attaining financial success. Remember, wise spending is part of wise investing.

### **3. Invest consistently**

It's important to know that wealth isn't created overnight. Successful investing takes consistency and patience. Your ability to exercise patience and invest consistently regardless of what is happening in the market may prove to be more important than how much you invest. Stay the course and let your money work for you.

For more information and tips on investing, visit the Resources section of the Databank website for articles, podcasts, videos and more.

Our mission at Databank is to empower our customers to achieve financial independence by promoting financial literacy and offering a diverse range of investment products and services. As the leading investment firm in Ghana, and with over 28 years' experience, Databank is your one-stop shop for investment solutions that can help you achieve financial independence. With our investment expertise and proven long-term track record, you can rest easy and be assured that your money will be thoroughly taken care of. So, whether your goal is to provide access to quality education for your children, purchase real estate, build a home, start a business, prepare for your retirement or for unexpected emergencies, Databank has the investment plan to get you there.
