

## 12 Reasons to invest with Databank

### Convenience

Why would you prefer to do your laundry with a washing machine rather than doing it with your hands? Why would you choose to buy an item online instead of going to the store although they cost the same? Why would you transfer money from your phone instead of driving all the way to give it to the person yourself? The answer is simple - CONVENIENCE. The dictionary defines convenience as "anything that saves or simplifies work or adds to one's ease or comfort."

At Databank, we recognize how important convenience is to you, which is why we are committed to making investing with us as convenient as can be.

#### Open an account at your convenience

You can open a Databank account from anywhere in the world. Our account opening platforms on our website ([www.databankgroup.com](http://www.databankgroup.com)) and Mobile App mean that an internet-connected device is all you need to start your Databank journey. There is no need to drive to a Databank branch or wait in long queues to sign up for an investment. With just a click on your phone, tablet or PC, you can open a Databank account within minutes.

#### Top up your account at your convenience

Account top-up has never been this easy and convenient. With a variety of deposit channels, you have no excuse not to invest consistently towards your financial goals.

You can also sign up for direct debit from your mobile money wallet by dialing \*6100#.
